

Slimline, linear luminaires

Flexbar Diffuser is an elegant, linear luminaire ideal for a wide range of applications. The uninterrupted diffuser creates striking lines of light across the ceiling whether it be surface, suspended or recessed mounted. The range includes individual, continuous and corner lengths to allow designers to be flexible with their lighting designs.

The dropped diffuser, available in opal and low-glare, provides upward light, creating a softer appearance whilst supporting illumination on the walls and ceiling, and aiding compliance to EN 12464-1 and LG7.

Applications: offices, education, meeting rooms, healthcare, circulation, leisure and retail.

- Integral through wiring system with plug and socket connector versions
- TM66 score of 2.6 - LIA/CIBSE certification scheme TSD-012 verified
- White (RAL 9016) or black (RAL 9005) body finishes
- Polycarbonate TP(a) fire-retardant diffuser in opal or low glare options
- Versions with optional uplight component
- Surface, suspended and recessed mounting options
- Low glare optics for EN12464-1 / LG7 (<1500cd/m² @ 65°) when using the low glare diffuser
